

## To change your major...

1. Go to the school office for the new major you want to declare.
2. The school office will submit an on-line request to Registrar's Office for your major change and advisor reassignment.
3. Once Registrar's Office processes your major change and advisor reassignment, you will receive an email notification in your Stallions email account.
4. Visit your new advisor. Your major change is effective for the next term, but you may see your new advisor for early advising and registration.
